

We make IT happen

LEAP W301R

A premium mobile solution for students and lecturers

Designed for students of Higher Education whose learning goals are more demanding and who seek performance, productivity, and mobility. Also intended for faculty members who like to optimize pedagogical and management tasks, among which are, designing study plans, learning materials, teaching experiences, communicating with peers, and personalizing the curriculum, in order to meet different learning needs.

Purpose-built for Education

Mobility, performance, and portability were on top-of-mind while designing and developing this device that fits the needs and challenges of Students and Lecturers.

By keeping in mind that the learning environments might go beyond the classroom walls, **LEAP W301r** fulfils the most wanted features of an educational device.

Drop resistant up to 50 cm

Liquid spill resistant up to 100 cc

Battery for a school day
